

March 14, 2010

Hi all!

I would gladly refer anyone to your training. I learned so much! I used many of the “tricks and techniques” as soon as I got back home.

I had received canvas training from a different program, last year. However, upon completion I found myself without much of the basic skills needed to be productive and profitable. Your class taught me so much more than just how to pattern. I look forward to the Advanced Class and I feel confident that it is money well spent.

My only regret is that I did not take the sewing machine repair class. I am sure it was also packed full of useful information too.

Thanks,  
Susan Rupp
